

# OCPS Online Physician Directory

## Special Populations

Below, you will find a list of psychiatrists grouped by city. Each of these psychiatrists treats some subtype of the general patient population, with a focus on women's issues, cross-cultural issues, gay/lesbian populations, abuse (domestic or sexual), special medical populations (e.g. infertility, HIV/AIDS, cancer, bariatric), other populations (e.g. religious, aviation) or other related areas.

### HOW TO USE THIS LIST

#### FIRST

Think of the city in which you would like to find a psychiatrist. Consider nearby cities as well.

#### SECOND

- **Look for a psychiatrist in the cities you choose, who lists your interest as an area of expertise. Such distinguishing areas are shown in boldface under each listing.** In addition, if you know the specific problem or diagnosis for which you are seeking help you may see psychiatrists who also list that problem as one of their areas of specialty.

- **If none of the psychiatrists below lists your interest, you may wish to return to the OCPS Physician Directory main menu and choose a psychiatrist based on the specific problem or other symptoms you are experiencing.** Many psychiatrists are skilled in treating patient populations that are not listed under their name, because each psychiatrist was asked to limit their list to 6 items and most psychiatrists are skilled in treating a wide variety of patients and conditions.
