## Child & Adolescent Psychiatrists

Below, you will find a list of psychiatrists grouped by city. Each of these psychiatrists treats children and/or adolescents.

### HOW TO USE THIS LIST

#### FIRST

Think of the city in which you would like to find a psychiatrist. Consider nearby cities as well.

#### SECOND

- **If you know the specific problem or diagnosis for which you are seeking help**, look for a psychiatrist in the cities you choose, who lists that problem as one of their areas of specialty. Check that the psychiatrist you are considering treats children or adolescents, as applicable.

- **If you don't know the specific problem or diagnosis**, select any of the psychiatrists in the cities you choose. Check that the psychiatrist you are considering treats children or adolescents, as applicable.

- **If none of the psychiatrists below lists an expertise in the problem for which you are seeking help**, then choose one that lists a similar problem or choose any psychiatrist. Check that the psychiatrist you are considering treats children or adolescents, as applicable. Remember that many psychiatrists are skilled in treating problems that are not listed under their name, because each psychiatrist was asked to limit their list to 6 items and most psychiatrists are skilled in treating more than six problems.
