## Geropsychiatrists

Below, you will find a list of psychiatrists grouped by city. Each of these psychiatrists specializes in the treatment of elderly patients and conditions that usually occur in elderly people, including disorders such as Alzheimer's dementia, delirium (usually due to a medical condition), or other conditions affecting memory and the ability to function in daily activities of life.

### HOW TO USE THIS LIST

#### FIRST

Think of the city in which you would like to find a psychiatrist. Consider nearby cities as well.

#### SECOND

- **If you know the specific problem or diagnosis for which you are seeking help**, look for a psychiatrist in the cities you choose, who lists that problem as one of their areas of specialty.

- **If you don't know the specific problem or diagnosis**, select any of the psychiatrists in the cities you choose.

- **If none of the psychiatrists below lists your problem as a specialty**, then choose one that lists a similar problem or choose any psychiatrist in the cities you choose. Many psychiatrists are skilled in treating problems that are not listed under their name, because each psychiatrist was asked to limit their list to 6 items and most psychiatrists are skilled in treating more than six problems.
