JUNIPER
MDD STUDY

A Research Study for Adults with
Major Depressive Disorder (MDD)

Are you experiencing a
low or depressed **mood**
and a **decreased** interest in
pleasurable activities?

Do you have feelings
of **guilt** or worthlessness,
lack of energy, or
poor concentration?

YOU MAY BE ELIGIBLE
TO PARTICIPATE IF YOU:

18-65
YRS OLD

Are between the
ages of 18 and 65
years old

Have been diagnosed
with major depression by
your healthcare provider

Have not responded
to at least 1 but no
more than 3 treatment
options for depression

Struggling to manage your depression?

The Reliance clinical research
study is currently testing an
investigational medication for
people living with depression, or
Major Depressive Disorder (MDD)

You may be eligible to participate
as a volunteer if you:

Are 18-65 years of age

Have been diagnosed with MDD
and are currently feeling depressed

Experiencing the effects of depression?

You could be eligible for the **VENTURA-1**
research study of an investigational
medication for adults and elderly people
diagnosed with depression.

LEARN MORE
